

FAQ's for HydraFacials

What is a HydraFacial?

Syndeo HydraFacial is a patented treatment that provides your skin a radiant glow. It uses a 3 step process of cleansing and exfoliation, extraction, and hydration. This treatment gently resurfaces the top layer of skin, removing dead skin, uneven and dull skin. The under layer of skin shines through. We are also able to add "boosters" to your treatment to customize it to your needs. Along with the boosters, we provide LED lights in the Deluxe HydraFacial. If you want to kick it up a notch, add lymphatic drainage with the Platinum HydraFacial.

How does it work?

The Syndeo HydraFacial deeply cleanses and softens the skin to help loosen dead skin cells and prep for extractions. This treatment removes congestion from pores with painless suction and infuses the skin's surface with intense hydrators and nourishing peptides.

Is there recovery time?

The Hydrafacial is a non-invasive treatment so there is zero downtime

Any pain or bruising?

During your treatment, there should not be any pain. If you're experiencing any sensitivity, let your skin professional know and they can lower the suction. After your treatment, your skin may experience temporary irritation, tightness, or redness. These are all normal reactions that typically resolve within 72 hours, depending on skin sensitivity. You may experience tingling in the treatment area. These sensations generally subside within a few hours. Bruising is not normally associated with this treatment.

Results?

Most patients see results immediately after treatment. Your skin may feel smooth and hydrated for one to four weeks with appropriate home care. To maintain results from home, speak with your skincare provider about your home skin regimen. This is a perfect treatment to have before an event!

How long does the procedure take?

- Signature HydraFacial takes 30 minutes
- Deluxe HydraFacial takes 45 minutes
- Platinum HydraFacial takes 1 hour.

Will I need multiple sessions?

For optimal long lasting results, multiple sessions are recommended. We have packages to make this more convenient for our patients.

Who is a candidate?

HydraFacial is a highly tolerable treatment and can be used for all ages and skin tones. This is one of our services that can be used on a younger crowd (this is a great treatment for teens). HydraFacials are perfect for anyone wanting stronger, brighter skin or even for someone who has a big event coming up!
